“Undoubtedly, one of the subgenres that grew the most last year was Sort Puzzle. The numbers are impressive.

In 2025, Sort Puzzle games grew by an unbelievable 115% in IAP revenue and 20% in the number of downloads.

Another highlight is the fact that most of the leading titles were released in 2024 or 2025.

Some with meteoric growth, such as the recently published “Pixel Flow!”.

If any game studio asks me which subgenre they should pursue this year, I have no hesitation in saying Sort Puzzle.”
